

I believe every word in the Bible is true	Catholics believe the Bible is true	I read the Bible on a regular basis
Science has proved that most of the bible is untrue	Your own interpretation of scripture is what matters	Different Christian groups understand the Bible in different ways
The Bible is the word of God	The Bible was originally written in Latin	The bible is 2,000 years old
The Old Testament is made up, the New Testament is true	If the Bible conflicts with science you have to believe the Bible if you are a Catholic	The Bible has nothing to say to people today that is relevant to our world
Catholics use the Bible in their daily lives	As we know more about how the Bible came to be written we can appreciate the meaning more deeply	The Gospels give an accurate account of the life of Jesus
The first part of the Bible to be written was Genesis	The God of the Old Testament is angry and vengeful but in the New Testament all about forgiveness	The Prophets told people the future
